EBM

Access MTS Cash market makers on a transparent and liquid order-driven electronic market

MTS Group operates Europe's leading interdealer government bond markets, with over 500 counterparties and 2,000 traders trading an average daily volume exceeding EUR 130 billion across all MTS platforms. EBM leverages and builds on this liquidity, increasing trading opportunities for participants making and taking prices.

EBM is an order-driven multilateral trading facility ("MTF") operated by MTS SpA ("MTS"), allowing participants to flexibly choose their role in accessing an order book that displays bid and ask prices for a very wide range of European government bonds and EU Bonds.
