

MTS Historical Data (Time Series)

One of the richest sources of historical pricing and trade data in Europe

As fixed income markets across Europe continue to experience unprecedented levels of volatility and uncertainty, MTS Historical Data delivers the depth and quality of historical time series data needed to optimise research capabilities and build profitable strategies in a changing trading environment.

MTS Historical Data is used by the world's leading financial and academic institutions, recognising the ability to profit from best in class data. The service offers different levels of depth and granularity, from daily market summary information to un-netted tick-by-tick pricing data.

Profit through:

- ▶ Superior research capabilities through access to the richest source of European government bonds data
 - ▶ Advanced insight into market behaviour and trends
 - ▶ Enhanced ability to build and test trading strategies and models
 - ▶ Enriched studies through deep understanding of trends across the European cash and repo markets
-

Features:

- ▶ All services include a full reference data file for each bond
 - ▶ Coverage increases as MTS continues expanding into new markets
 - ▶ New MTS markets are automatically included in the generation of MTS Historical Data, continually adding significant value
-

Delivery methods:

- ▶ Direct from MTS via FTP or HTTPS
 - ▶ One-off delivery of historical files or rolling subscription to end-of-day files
-

Features by service:
